### OUTLINES.

The Inter-State Commerce Commission is tackling the biggest combination in restraint of trade that has yet been called to its attention; complaint is made that the Hamburg-American Packet Company is in a combination with other steamship lines and dictates freight rates and intimidates shippers in America and Europe, aided by the government owned railroads of Germany; every body in this country is affected by this huge monopoly——Cadet George R. Ramel, of New York, fell overboard from the revenue cutter Chase, June 17, and was drowned——The State agents of the Farmers' Union in Memphis yesterday heard statistics concerning the cotton manufacturering industry in Europe and discussed plans to cut out middle men in the sale of cotton to manufacturers——A general strike of the telegraphers of the Western Union and Postal Companies has been ordered in New York, to go into effect as soon as the union officials call it——In the prosecution of former Associate Statistician Edwin S. Holmes, Jr., in Washington yesterday, charged with divulging cotton statistics, L. C. Van Riper, the New York broker, testified that at one clip Holmes received $49,000 in $1,000 bills for his share in the profits resulting from his tips——An expert metal furniture man yesterday testified before the capitol investigating committee at Harrisburg, Pa., that the State was monstrously swindled in everything that went into the new State capitol, in one instance having to pay $566,000 for bronze worth only $26,000 in the market——In the Steunenberg murder trial in Boise, Idaho, yesterday, the State dramatically introduced evidence to substantiate Harry Orchard's story, including the bomb which he planted to kill Justice Stoddard in Denver——New York markets: Money on call firmer 2 3-4 to 2 1-3 per cent., ruling rate 2 3-4, closing bid 2 3-4, offered at 3 1-4; spot cotton steady 12.95; flour moderately active and steady; wheat firm, No. 2 red 97 3-4 elevator; corn firm, No. 2 63 elevator; oats firmer, mixed 51; turpentine and rosin firm.

Who cares whether Uncle Joe said it or didn't say it? Uncle Joe is a politician.

Secretary Taft refuses to discuss the other aspirants for the Presidential nomination at the hands of the Republican party. Taft has sense like the horse.

The delegates to the Peace Conference at The Hague are cautioned against having too many rows over their conflicting methods to bring peace to the Nations.

A Chicago jury awarded $10 to a man who sued another for $10,000 for alienating the affections of his wife. Most men would be satisfied with a verdict of 30 cents for affections that allow themselves to be alienated.

The New Orleans Picayune, one of the South's reliable cotton authorities, estimates that the cotton crop in the Southwest is 40 days late, but that favorable weather has increased the condition of the plants from 35 to 50 per cent. It is estimated by cotton men in the Atlantic part of the belt that the crop is 30 days late.

Justice Zell G. Roe, of DesMoines, Ia., when he marries a couple, guarantees that the knot will keep the couple together for a year, and if it does not he will refund the marriage fee. Justice Roe is certainly running a great risk in having to be called up all times of the night to come across with his back pay.

The convention of cotton mill men, representing cotton manufacturers of the Carolinas and buyers of cotton, has been in session at Asheville. The following are among the important matters decided: Shall mills pay 3 per cent. tariff on compressed cotton? No. Shall mills accept bills of lading which do not give number or initials? No. Shall the mills accept New York cotton exchange arbitration in trades? No.

In view of the fact that Senator Platt, of New York, claims that he made Roosevelt Vice President and thus paved the way for him to be President, it is now stated that Platt has served notice on the Republican party that next year the pary can select its own Vice President. This means that Platt sees his great mistake and runs the risk of also taking the blame from E. H. Harriman and others.

Millikin Bros., of New York, failed a few days ago and gave as the reason that prices of material had advanced to such a high price that their capital could not meet the demands upon it. High prices have got all of us sitting up straight. High prices somtimes do the country more harm than good—that is high prices on an artificial basis, like a high tariff. If the matter were sifted to the bottom, too much tariff crushed the Millikins.

## OLD INSTITUTES

### Series ot Dates Arranged For The Southeastern Counties of North Carolina.

### STATE BOARD OF EDUCATION

**Visit Proposed Sites For Eastern Carolina Training School—New Rector of St. Mary's School—The Rowland Case Develops.**

(Special Star Correspondence.)

Raleigh, N. C., June 19.—Arrangements in detail have been made for a series of farmers' institutes to be held in all parts of the State except a few counties along the northeastern coast during July and August under the auspices of the State Department of Agriculture. Dr. Tait Butler, State Vetenarian, is director in charge and some of the others who will take part in the programmes are State Horticulturalist W. M. Hutt, Entomologist Franklin Sherman, Assistant State Chemist C. D. Williams; Professor C. M. Conner, of the chair of agriculture, F. L. Stevens and J. F. Jeffries, of the A. & M. College; J. A. Cambell, Alexander county; T. B. Parker, Raleigh; Dr. W. J. McLendon, Anson county; T. E. Brown, of Hertford; N. A. Layton, of Bladen; Colonel J. R. Redding, late director of the Georgia experiment station.

In connection with very many of these institutes special institutes for women will be held and for these there will be Miss Mae Card, of the State Department of Agriculture; Miss Viola Boddie, of the State Normal and Industrial College; Mrs. F. L. Stevens, and Mrs. Walter Grimes, of Raleigh, and Mrs. S. V. Hollowell, of Goldsboro. Dates for these institutes in southeastern counties follow: New Hanover, at Wilmington, August 8; Pender, at Burgaw, August 9; Brunswick, at Bolivia, August 6; Bladen, at Elizabethtown, July 30; Columbus, at Whiteville, August 7; Cumberland, Fayetteville, August 3; Duplin, Warsaw, Aug. 2; Harnett, Lillington, August 2; Richmond, Rockingham, July 23; Robeson, July 15; Raft Swamp Church, July 19; at Barnesville; Sampson, Clinton August 23; Scotland, July 22, at Sneed's Grove.

The State Board of Education will tomorrow start on its official visitations to the Eastern Carolina towns which are bidding for the location of the East Carolina Teachers' Training School, provided for by the last Legislature, the purpose being to inspect the site offered by each town and the accessibility and healthfulness of each. The towns to be visited are Rocky Mount, Tarboro, Greenville; Washington, Edenton, Elizabeth City; Newbern and Kinston. Attorney General R. D. Gilmer will not be in the party as he is engaged in the preparation of the case involving the 2 1-4 cent passenger rate and frieght reductions to be heard in Asheville June 26th before Circuit Judge Pritchard.

Rev. George W. Lay, the newly elected rector of St. Mary's School to succeed Rev. McNeely DuBose, is not expected here to take up his duties until September when the Fall term opens. He is a son of the late Bishop Lacy, a graduate of Yale and the General Theological Seminary, New York, and has been with St. Paul's School, Concord, New Hampshire, for twenty years as one of the masters. His wife is a daughter of Rear Admiral Balch and they have an interesting family of seven children.

The question of whether or not there shall be proceedings for writ of habeas corpus in the case of Dr. D. S. Rowland and wife is still unsettled, though the general impression is that no such action will be instituted by their counsel for the reason that they prefer to have their clients await trial in jail since the July term for which they are committed convenes July 8th. Application for writ of habeas corpus refused would have the tendency to prejudice the case when the trial is had in the Superior Court.

**Capt. McNeill Injured.**

The Fayetteville Observer of yesterday afternoon says: "Captain Jas. D. McNeill, Chief of the Fire Department and president of the State and National Firemen's Associations, had an ankle sprained while answering a fire alarm yesterday afternoon. The hose wagon, on which Captain McNeill was riding, struck a plank in the middle of the street while going at full speed and the chief was thrown from the rear step, high in the air and missed his footing on the descent."

## THE STREET COMMISSION

**Lengthy Conference of Members Yesterday at City Hall For Examining the Law More Minutely. Clerk and Engineer.**

The Street Commission of the city was in session yesterday morning from 10 o'clock until 1:30 o'clock in the afternoon. Capt. Louis Belden, the chairman, and all other members of the body were in attendance, viz: Messrs. George H. Heyer, Wm. E. Worth, W. L. Parsley and R. H. Brady. Most of the time was spent in still further examining the act of the late Legislature under which the Commission is to undertake the comprehensive system of street improvement for the city. Beyond acquainting themselves with these provisions there was little other business before the meeting.

The principal topic discussed was the repair of the streets, the law requiring that all work be done by contract. This is considered impracticable by some of the members, but members of the Board of Audit and Finance believe that there is some way out of the dilemma and a conference with that Board will probably be held at which the entire situation will be canvassed and some agreement will be reached. Later it is proposed to have a conference with the Board of Aldermen and then, perhaps, with the two boards in joint session.

The matter of the election of a clerk and an engineer was discussed some yesterday, but nothing was given out as to what was done in this particular. It is presumed that no election of these officials will be made until other matters are more settled. Thus far the only candidate for the position of clerk known to the public is Mr. W. Sloan Huggins, who has made formal application to the Commission. Mr. Huggins has high endorsements and his friends are urging that he be named for the position.

### WANTED IN WILMINGTON.

**Young Man Arrested in Winston-Salem, But Subsequently Released.**

The following special from Winston-Salem will be read with interest locally:

Winston-Salem, June 18.—Charged with embezzlement of some $40 or $50 from S. L. Smith & Son, of Wilmington, H. E. Sullivan, a white man of a family, was yesterday afternoon arrested by Patrolmen Hartness and Bryan. The arrest was made on Fourth street on the north side of the court house, and was only a short time after a telegram was received from Wilmington requesting the arrest. The Wilmington authorities were notified of the arrest and in a short time a reply was received to the effect that the prisoner could be released on the payment of $55.

Sullivan is employed by Mr. L. B. Brickenstein, who advanced the money for his release. Sullivan went to Wilmington from this city about nine weeks ago. S. L. Smith & Son advanced him the money to move on with the understanding that the amount was to be paid back out of his wages. Sullivan became dissatisfied with Wilmington and left there last Friday and according to his statement, was due the firm $42.

### MAYOR'S COURT YESTERDAY.

**Three Negro Women to County Farm. Other Cases.**

The mayor's court yesterday was of little interest, the most important cases being those of three negro women, inhabitants of Strauss' alley, who were up for vagrancy and were given 30-day jobs on the county farm.

Thos. Wells, a drayman, for fast driving at Front and Chestnut streets, was fined $5 and costs.

W. J. Yopp, white, for disorderly conduct and H. S. Barnes, for being drunk and down, were each taxed with the costs.

The three negro women sent to the roads figured in the shooting of John Wesley, colored, in Terry's alley night before last. They were found to be an idle, shiftless sort and not disposed to give the true facts of the shooting. Wesley was not able to leave the hospital yesterday. When he is able to come to court one of the women will be returned to the city for trial on a charge of shooting Wesley. Her name is "Missie" Pearce.

### MR. J. C. PADGETT.

**Passed Away at His Home Tuesday Evening—Funeral Yesterday.**

Mr. B. F. Padgett, who was an employe in the Atlantic Coast Line shops, passed away Tuesday evening at 7:30 o'clock at the family residence, No. 114 North Eighth street. He had been suffering with a complication of diseases for some time, which finally caused his death. His home up to a few years ago was at Rocky Point, from which place he came to this city. He leaves a wife and five children, also two brothers, Messrs. B. T. and J. D. Padgett, and one sister, Mrs. I. R. Rochelle, all of Rocky Mount.

The funeral was conducted from the late residence of the deceased at 5:30 o'clock yesterday afternoon and interment was in Bellevue.

The pall-bearers were Messrs. W. B. Munroe, W. T. Mercer, T. S. McAllister, J. Ed. Smith, J. C Kendall and P C. Scott. The services were conducted by Rev. A. D. McClure, D. D., pastor of St. Andrew's Presbyterian Church.

## BIG IMPROVEMENTS

### Suburban Cars Operated Yesterday by Carolina Place For The First Time.

### $100,000 BEING EXPENDED

**Work on Extension in Southern Part of City Begins Today—Travel to Wrightsville Beach Greatly Facilitated—Construction.**

With the exception of laying the second rail on two blocks, the double tracking of the Consolidated Company out Princess street by way of Carolina Place is completed and the first car was operated around that belt yesterday morning on the up-trip from the beach at 8:15 o'clock. It was something marvellous to see one of the large suburban cars take the curves under full headway out in that section where a few years ago there was practically nothing but a wilderness of scrubby oaks and an expanse of white sand. Suburban cars in the future will be operated via Carolina Place to the beach and the change of scenery will be quite interesting to beach patrons for a while at least. As before stated the single track around by Ninth and Orange streets car shed will not be taken up for the present but will be used in handling freight cars and in taking the city and suburban cars to the barn.

Beginning Saturday morning a regular Carolina Place and Delgado car will be put on the line, running a fifteen minute schedule to those two suburban points. One of the city cars will be used and it will be operated between the suburban cars for the beach, that is, it will leave the junction at Front and Princess streets between each suburban car. This will be local schedule with all stops and the fare will be only five cents.

There is now a double track from Front and Princess streets to Nolan's Crossing and with the exception of a short run by Greenville and over Bradley's Creek there is practically two tracks to the beach. While there is not much opportunity for lowering the time now made to the beach from the city, cars already being operated on a fast schedule, the travel will be much more easily and comfortably handled and the schedule can be maintained with greater ease.

There are few people who know that the improvements now under way by the Consolidated Company will cost $100,000 according to an estimate officially made yesterday. There are now 200 trackmen engaged by the company in the double tracking and on the extension. Today some of the force on the Princess street work will be transferred and will begin work on the extension in the southern part of the city.

### MAYOR SPRINGER RETURNED.

**Attended Meeting of Trustees of Methodist Orphanage in Raleigh.**

Mayor William E. Springer returned yesterday morning from Raleigh where on Tuesday he attended the meeting of the trustees of the State Methodist Orphanage, of which Rev. J. N. Cole, formerly of this city, is now superintendent. The trustees found the affairs of the orphanage in splendid shape and a number of improvements during the coming year were authorized. These consist of the purchase of additional lands and the building of necessary outhouses on the premises. There are now 113 children under the care of Superintendent Cole, who is succeeding remarkably well with the institution.

The report of Treasurer Joseph G. Brown, of the Orphanage, showed that since December 1906, about $7,000 has been added to the endowment fund of the institution.

### THE ATLANTIC NATIONAL.

**Favorable Mention in a New York Financial Newspaper.**

The Financier, a paper of high reputation in financial circles in this country, in its issue of June 10th, 1907, has a pleasing reference to the Atlantic National Bank, of this city, in connection with its recent report in response to the call of the Comptroller of the Currency. The statement is as follows: Loans and discounts, $711,926; overdrafts, $2,353; U. S. bonds, $175,000; North Carolina four per cent. bonds, $99,000; stock securities, etc., $53,650; banking house, $20,000; due from other banks, $378,959; cash on hand, $62,756; capital stock, $125,000; surplus and profits, net, $220,068; deposits, $1,033,577; total resources, $1,503,646. The bank was organized in 1892 and has paid to stockholders in dividends since then, $213,750.

### REAL ESTATE TRANSFERS

**Deeds Filed for Record at the Court House Yesterday.**

The following deeds were failed for record at the Court House yesterday:

Bishop Leo Haid and others, to Miss Mary Bridgers, for $11,000 property near Seventeenth and Market streets, 466x900 feet in size.

J. Bascom Mercer and wife to A. W. Pate, of Norfolk, Va., for $100, property in East Wilmington, 100x522 feet in size.

## MR. E. P. COVINGTON DEAD

**Well Known and Highly Respected Wilmington Citizen Passed Away at His Home in This City Last Night—The Funeral.**

In the death of Mr. Edwin P. Covington, which occurred last night at 10:40 o'clock at his home, No. 519 Grace street, after very feeble health covering a period of several months, Wilmington loses one of its oldest and most highly esteemed citizens and business men. Mr. Covington had been confined to his home and had not been actively engaged in business for several months and while his death was not unexpected, it came as a sad realization to the family and friends. He was born at Rockingham, N. C., and was in the seventy-eighth year of his life. He was a useful, upright, Christian gentleman and has gone to a reward for which he had striven by an exemplary life for more than half a century.

The funeral will take place at his late residence, 519 Grace street, this afternoon at 2:30 o'clock after which the remains will be taken to Rockingham, N. C., his birthplace, for interment. The services will be by his pastor, Rev. N. M. Watson, of Grace Church, assisted by Rev. W. L. Cuninggim, presiding elder of the Wilmington District.

Mr. Covington removed to Wilmington soon after the war and engaged in business here. For many years he was a member of the firm of Covington & Everett, general commission merchants, and later of the firm of C. C. Covington & Co. The latter firm was succeeded about 1902 by the C. C. Covington Company, importers in and dealers in flour and molasses, doing a large wholesale business in this and other States. Of the company Mr. Covington's son, Mr. C. C. Covington, is president; Mr. E. P. Covington was treasurer, and Mr. W. L. Williford is secretary. The deceased was a man of strong character, excellent business judgment and his counsel was frequently sought. In business circles his presence will be missed while generally a host of personal friends will hear with sorrow of his passing away.

Mr. Covington was married in Rockingham before coming to Wilmington and his wife preceded him to the grave several years. He is survived of the immediate family by two daughters, Miss Keith Covington, of Wilmington, Mrs. H. D. Thompson, of Baltimore; one son, Mr. Charles C. Covington, of Wilmington, and two brothers, Messrs. T. B. and J. W. Covington, of Rockingham. All of the family have the sympathy of many friends in the bereavement they have suffered.

Mrs. Thompson, of Baltimore, had recently spent some time in Wilmington on account of the feeble condition of her father but had returned home a short time before his death. Members of the family here will accompany the remains to Rockingham for interment this afternoon.

### FIREMEN'S TOURNAMENT.

**Advertising Committee Preparing to Get Busy With Lithographs.**

There was an important meeting of the Advertising Committee of the Firemen's Tournament to be held in this city in August yesterday afternoon at 4:30 o'clock at The Purcell. Mr. James H. Cowan was elected chairman and among those in attendance were Assistant Fire Chief W. P. Monroe, Mr. H. Woollcott, of the Consolidated Company; Mr. Jos. H. Hinton, proprietor of The Orton and Purcell, Mr. T. R. Bryan, of the passenger department of the Coast Line, and representatives of the press. Samples of a large number of handsome lithographs from Donaldson and others were submitted at the meeting with other advertising devices suitable for the tournament and a selection was made from these and an order will be forwarded at once. The railroads will be asked to see to it that man is sent into every town and hamlet of importance throughout the Carolinas with the advertising matter to the end that the attendance may be the largest ever recorded at a State or Inter-State affair. The Finance Committee of the Tournament has allowed $200 for advertising purposes and the committee also has other sources of revenue. The meeting was very enthusiastic and active work toward advertising the meet in Wilmington will begin at once.

**Daughters of Confederacy.**

An enthusiastic meeting of Cape Fear Chapter, Daughters of the Confederacy, was held yesterday afternoon at the Wilmington Light Infantry armory. The report of the committee in charge of the observance of the anniversary of the birth of President Jefferson Davis on June 3rd made report of appropriate exercises on that occasion. It was decided to confer Crosses of Honor on veterans on August 23rd, the anniversary of the founding of the Fayetteville Independent Light Infantry. Delegates were elected to the State Convention, U. D. C., at Greensboro in August and also to Daughters Day at the Jamestown Exposition about the same date.

There is no shock to the system from relinquishing the use of stimulants by the Keeley System of treatment as administered at The Greensboro Institute, the only authorized Keeley Institute in North Carolina. thu sat **

## INSTITUTE CLOSING

### Carolina International Training School at Wrightsville Beach Will Adjourn To-Day.

### VERY HELPFUL DISCUSSIONS

**Mass Meeting of General Interest Last Night—Something of the Work Accomplished During the Gathering—Dr. Ivey.**

The Carolina International Training Institute for Sunday School workers of all denominations, which has been in session since last Friday morning at the Seashore Hotel, Wrightsville Beach, will come to a close today. Many of those who came for the institute will return to their homes on the afternoon and evening trains while still others will remain at the hotel to enjoy the pleasures of North Carolina's favorite seaside resort. The sessions this year have not been so largely attended as formerly, but there is no gainsaying the fact that the course of instruction has been the best yet afforded. The school has been conducted by specialists in their respective lines and the pity is that there was not a greater outpouring of the Christian workers of the border States. Mr. W. B Cooper, the manager of the Institute, has worked assiduously in the interest of the great gathering and the measure of success it has attained has been largely due to his efforts. Manager E. L. Hinton, of the Seashore Hotel, has done all in his power to make the visitors feel at home and the entertainment afforded the institute could not have been improved.

Dr. Hamill opened the morning session of the school yesterday with a splendid talk on the evolution of the organization, which is today called the Church.

Mrs. Hamill spoke particularly of the Child religion and the results sought to be attained in the holding of the institute with respect to this branch of the work. Mrs. Lamoreaux interestingly developed the subject, "Will Training and Habit Formation." Miss Hungerford continued her daily blackboard drills and conducted classes in pad-sketching.

One of the notable arrivals yesterday was Rev. T. N. Ivey, D. D., editor of the Raleigh Christian Advocate. He came late, but his presence was none the less welcome for that.

Owing to the fact that no opportunity had been given to delegates for an outing at the beach, the afternoon session yesterday was omitted in order that those who wished might enjoy themselves in some of the many ways provided at Wrightsville. This was turned to good account by a number of the visitors who went for a launch trip to one of the islands in the Sound.

The service last night was called at 8 o'clock and was one of the most largely attended and most interesting of the sessions. The large auditorium of the hotel was well filled. After a brief song and prayer service Mrs. Lamoreaux addressed the audience on the subject of Adolescence, saying that she wished to show why this is such a critical and important period in youth. It is the period of storm and stress, the maelstrom time of life. New feelings and new experiences are constantly entering this life, which does not understand itself and is not understood by others. The years between 14 and 24 the speaker regarded as years of new birth, new plans and new purposes. At this period God speaks to the young hearts saying, "Behold I make all things new." The difference between the child and the youth is that while the child is easily impressed the youth is easily influenced. He then begins to feel the pull of heredity. From these thoughts the speaker went on to trace the life, the influences that are and should be brought into play, closing with an appeal to her hearers to see the opportunity and to embrace it for Jesus Christ.

Dr. T. N. Ivey, editor of the Christian Advocate, was the next speaker and he took occasion to commend Dr. Hamill for his rules of punctuality. Dr. Ivey spoke for about ten minutes, and was heard with greatest interest. Dr. Hamill closed the addresses and at 9:40 o'clock adjournment was had. The night session was greatly enjoyed by all in attendance.

### SOME "BLACK HAND" LETTERS.

**Young Wilmingtonian Disturbed By Anonymous Communications.**

Young Mr. Leo Lacy, who lives with other members of the family near Tenth and Princess streets, is considerably disturbed over certain anonymous communications that have reached him through the mails and in which dire threats are made against him personally unless he ceases to pay court to a certain young lady, who has also been annoyed with these anonymous epistles. The matter is all the more annoying to young Mr. Lacy because it was only recently that he was waylaid and badly used up by unknown persons. Mr. Lacy believes that the persons who made this assault are the same who are the authors of these anonymous communications and he will make every effort to ferret out their identity. The matter has been reported to the police and postoffice authorities, it is stated.

## OVERLOOKED WILMINGTON.

The Raleigh Evening Times notices an oversight, accidental or designed, in a recent exploitation of the port of Charleston:

"On June 13 the Columbia State issued a forty-eight page special entitled 'Charleston Export Edition,' with large maps and much information about the seaport Charleston and other southern points. The edition is a splendid piece of work and very readable and indicative of the right kind of enterprise. The purpose of this edition has already been pointed out in these columns, and need not be gone into further here. As we said then, we are glad to see this advertising of the port of Charleston, for the reason that our own port of Wilmington is likely to benefit by what benefits Charleston, as well as because we are glad to see any additional indication of progress in our sister state of South Carolina.

"But we cannot refrain from calling attention in this connection to what we look upon as an incomprehensible omission. There is an article in this special edition of The Columbia State by E. J. Watson, state commissioner of agriculture, commerce and immigration, on 'Reasons Why Charleston Must Become the Chief South Atlantic Seaport.' In that article he gives a table showing the actual mileage from leading points in the country to the principal ports. The ports shown are New York, Philadelphia, Baltimore, Norfolk, Charleston.

"Why Wilmington is omitted from the list of principal ports we are at a loss to understand. The jump is made from Norfolk to Charleston as if Wilmington were not on the map at all.

"Now let us look at figures a minute to see if the North Carolina port is worthy to be classed among the principal ports of the Atlantic coast. The collector of the port of Wilmington, B. F. Keith, reports that the exports from Wilmington for the year 1906 amounted to $18,446,000,while those of Norfolk and Portsmouth combined were only $12,025,000, and Charleston little over $661,000. He says the Wilmington customs office has in sight enough business at the close of the fiscal year, June 30, 1907, to make at least $20,000,000. He adds that Wilmington's import duties so far this year have amounted to as much as the import duties of Charleston last year, and if Norfolk and Portsmouth are taken separately, Wilmington's import duties amount thus far this year to as much as either of them had last year.

"While we have no desire to run down Charleston as a port, still we think this is an excellent opportunity to call attention to the enormous amount of business passing through the port at Wilmington. It does not seem to be generally known or appreciated."

Skipping from Norfolk to Charleston and leaving Wilmington out of the list of important ports does not detract from the facts which the government statistics show, and that is that as far as exports go on the South Atlantic the order comes this way: Baltimore, Savannah, Wilmington. The Star yesterday quoted the "Monthly Summary of Commerce and Finance of the United States," just issued by the Department of Commerce and Labor, and that is what the figures plainly said.

There is no reason why Wilmington should have been overlooked or ignored in the article of Commissioner Watson. There is a demand for the improvement of every South Atlantic port, and we want to see Wilmington, Charleston, Savannah and Jacksonville get their dues. It will be good for the entire South. One good harbor is not enough. There is room for all and the more the merrier.

## AN IMPORTANT TRADE ROUTE IN PROSPECT.

Since our 30-foot channel scheme was set on foot by the Wilmington Chamber of Commerce, the port of Wilmington is getting some good advertising. The facts as to the importance of the port has opened the eyes of the press, especially the newspapers of North Carolina, and it is gratifying that the editors are adding to the facts comments that will be of great value and weight when Wilmington goes to make its argument to Congress in behalf of deep water. A few days ago The Star called attention to the fact that the States of North Carolina, Tennessee, Virginia and even Ohio are interested in the development of this port, and the Charlotte Observer of Tuesday gives that suggestion this strong endorsement under the heading "An Important Trade Route in Prospect":

"Wilmington's deep water project obviously concerns all North Carolina. That it possesses a yet wider scope is pointed out by the Wilmington Star. Says The Star:

"'To some extent it is an inter-State project, for east Tennessee, southwestern Virginia and southeastern Kentucky are interested in it for the development of their coal fields. Back of the movement of our Chamber of Commerce, therefore, should be the collieries companies with their millions of dollars invested in coal properties. Back of it should be the Seaboard Air Line an dthe South & Western Railways, and every city and town in the State should co-operate in securing the success of the project. Not only are the States named concerned in deep water at Wilmington, but Nashville, Louisville, Cincinnati and other Western points are interested. The South & Western is not only going to be a coal road, but it will open direct commercial connections with the cities named. It will afford them a fine opportunity to get into new territory, and, therefore, The Star would suggest that our Chamber of Commerce should at least secure the co-operation of Nashville, Louisville and Cincinnati.'

"The Star further suggests that in order to promote the deep water scheme, it would be a good idea to have a deep water conference or convention in Wilmington and invite delegates, especially from every city directly interested.

"It seems certain that the South & Western will add largely to Wilmington's back country; enormously if the main line to the coast is by the Carolina Central. The South & Western, with this connection, should be to Wilmington what the Chesapeake & Ohio has been to Newport News, only the North Carolina city would receive as an accession of strength what was built upon a vacant water front on Hampton Roads. With deep water, Wilmington would offer advantages for shipbuilding similar to those already utilized on a large scale at Newport News. The establishment of so important a new trade route as The Star forecasts could not fail to be of great advantage to the North Carolina towns and cities along its line, especially Charlotte, which would gain a position similar to Lynchburg's in addition to the present strong points of her strategic situation. As The Star observes, Louisville, Nashville and other cities westward stand to gain an important new outlet. It is thus clear that interests of such wide scope are concerned that a united appeal to Congress would come with very great force. Wilmington's Chamber of Commerce has done well to set the movement afoot."

## CURRENT COMMENT.

—Some of the boys that saw the battleship Georgia thought it ought to be called the South Georgia; it was such a big thing, you know.—Savannah Press.

—A man has won $750 in a suit against a street car company for having his feelings hurt by the insulting language of the conductor. Now, let somebody make a case against the hotel clerk.—Atlanta Journal.

—A Pittsburg court has ruled that a man's first duty is to his wife; that she has the first call upon his time and attentions, no matter what his relatives may think about it. A young man tried to get a divorce from his wife because his mother didn't like her. The wife said it was a case of too much mother-in-law, and upon hearing the testimony the court agreed with her.—Savannah News.

—Paris and New York are preparing for another Gould-Castellane sensation. Members of the two families, it is said, have taken steps towards the reconciliation and remarriage of Countness Anna and Count Boni that may prove successful. The Castellanes, it is intimated, are entirely too proud to permit the Gould millions to get away from them if there is any possible way to prevent such a calamity. The Count's family connections, it is said, have declared that they will do all in their power to further the American woman's social aspirations if she will only take Boni back and pay all the bills.—Savannah News.

—A law has gone into effect in Missouri providing that insurance and railway companies which transfer cases from state courts to the federal courts shall be subject to the forfeiture of their charters. The law is designed to increase the number of jury trials and not to leave the disposition of cases to federal judges. The same provision is found in the Oklahoma constitution. It is not likely that the Missouri legislation will survive the scrutiny of the state courts. The question raised is whether the exercise of a right conferred under the federal constitution can be penalized by the action of a state legislature, or even by a state constitutional convention. If the federal courts have authority over an issue in which railroads or insurance companies are involved, it would be a remarkable application of state authority if it could punish a company by forfeiting its charter simply for invoking the federal judicial jurisdiction.—Philadelphia Ledger.

## TWINKLINGS.

—Papa—I never told lies when I was a boy, Willie, Willie—When did you begin, papa?—Slovo.

—"Guides are said to be scarcer than ever this year." "I'm not surprised." "Nor I. Next we'll hear that guides are extinct."—Washington Herald.

—Undesirable. —Jasper—Do you think that any wolf could kill an elk as Dr. Long says? Jumpuppe—Well, if he could he would be a very undesirable wolf.—New York Sun.

—"I never saw a man with such a head for business," remarked the first fly. "Smart, is he?" asked the other. "Oh! I mean for our business; he's absolutely bald."—Philadelphia Press.

"You railway men are surely not wanting in respect for governmental authority?" "Certainly not," answered Mr. Dustin Stax: "governmental authority has been very valuable to us in the past in compelling us to do things that we wanted to do anyhow."—Washington Star.

"—What's the matter with Bradsleigh? He looks discouraged." "He worked for three years on what he thought was going to be a luminous poem. The critics are publishing their reviews of it under the head of 'Light Verse.'"—Chicago Record Herald.

Mrs. Winslow's Soothing Syrup has been used for over 60 years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by Druggists in every part of the world. Twenty-five cents bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other.

### Remarkable Rescue.

That truth is stranger than fiction, has once more been demonstrated in the little town of Fedora, Tenn., the residence of C. V. Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat, Doctors failed to help me, and all hope had fled, when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleding diminished rapidly, and in three weeks I was able to go to work." Guaranteed cure for coughs and colds. 50c and $1.00 at R. R. Bellamy's drug store. Trial bottle free.

Have your eyes examined by Dr. Vineberg, the Eye Specialist, at Munds' drug store, Masonic Temple. No charge for examination. Spectacles or eyeglasses from $1.00 and up. Satisfaction guaranteed. 2t

Belle of Virginia

BLENDED RYE

When a man goes for a drink of Belle of Virginia Whiskey he hurries because he knows he will have a fine drink, and when he comes away he smiles and smacks his lips because he has had it. Belle of Virginia is a blended whiskey—a rye whiskey carefully and scientifically blended from fine, pure, old whiskies. It's a really good honest article and to those who like a blended whiskey it will give satisfaction clear down to the ground.

Sold at the places where gentlemen go to get a drink.

## THE SHORT NOSES.

**Something to Be Said In Favor of Those Who Wear Them.**

"Physiognomists tell us that the big nosed people do the world's work," said a short nosed man the other day, "and they generally add a lot of rubbish about Napoleon's big nose and how he always selected big nosed men to carry out daring undertakings.

"That Napoleon story was invented by some one with a nose like Cyrano de Bergerac, who wanted an excuse for his proboscis and therefore pretended that his nose was but the introduction to a massive, imposing character. It is true that a big nose is sometimes indicative of firmness and determination, but only when it is associated with a strong jaw and long chin. A big nose with a retiring chin is almost idiotic in the expression it gives to the countenance. Every cartoonist knows this. Whenever you see a cartoon of a society dude it shows a long nose and a small chin.

"But there is something to be said in favor of the short noses. The short nose shows wit, imagination, tact, judgment, discretion. Socrates had a snub nose, and of the lively imaginative writers in almost any language a considerable proportion was short nosed people. Long nosed men may do their share of the world's work, but the short noses write the clever books and the entertaining plays. If Shakespeare had had a nose like the Duke of Wellington, do you ever suppose that he would have written the "Merry Wives of Windsor?" He might have been a successful theater manager, but would never have become a literary artist.—St. Louis Globe-Democrat.

### A Sardinian Titbit.

The inhabitants of the mountainous districts of Sardinia eat large quantities of a fermented milk, resembling koumiss or kephir. It is prepared by allowing the milk of the cow, sheep or goat to ferment at a moderately high temperature, either spontaneously or after the addition of baker's yeast, until it thickens into a more or less consistent homogeneous mass, at which stage the fermentation is stopped by plunging the vessel into cold water. This product, which has a sharp acid flavor, is eaten either by itself or is spread as a butter upon bread.

### A Hardship.

Favored Waiter—I'm goin' to leave here when my week is up.

Regular Guest—Eh! You get good pay, don't you?

"Yes, 'bout the same's everywhere."

"And tips besides?"

"A good many."

"Then what's the matter?"

"They don't allow no time for goin' out to meals. I have to eat here."—London Mail.

### From Frying Pan to Fire.

"Life is full of contrariness and nonpayment of alimony," complained the woman as she took her seat reluctantly at her desk on the morning after the dance. "When I was married and had more leisure than anything else the days were long and deadly, but now that I am free and life might be one endless dream of gayety I have to work."—New York Press.

### Safe.

"Now, dear," said the hero of the elopement as they boarded the train, "we are safe from pursuit." "And also," said the young girl radiantly, "safe from starvation. Here's a check pa made out to your order."—Exchange.

### A Fortunate Texan.

Mr. E. W. Goodloe, of 107 St. Louis St., Dallas, Tex., says: "In the past year I have become acquainted with Dr. King's New Life Pills, and no laxative I ever before tried so effectually disposes of malaria and biliousness." They don't grind nor gripe. 25c at R. R. Bellamy's drug store.

There is a marked similarity between the disease of drunkenness and the diseased condition caused by drugs, and The Keeley Cure as administered at the Greensboro Keeley Institute is equally as effectual in cases of drug using as it is in inebriety. thu sat **

**PROPOSITION 11—**
For prepaid **new** subscriptions to the amount of $40.00, a free ticket from your home to the Jamestown Exposition and return.

## RULES GOVERNING THE CONTEST. READ THEM CAREFULLY:

A.—All subscriptions must be received at the regular published rate. No discounts or commussions whatever will be allowed.

B.—**No subscriptions will be received for a less time than three months.**

C—**Every subscription sent in under this offer must be a bone-fide new subscription to The Morning Star. No others will be received, and a careful investigation will be made to determine whether or not the name sent in is a new subscriber.**

D.—**Cash must accompany all orders.**

E.—All that is necessary to win any of the trips enumerated above is that the subscriptions sent in shall aggregate the amounts named. Orders need not be for yearly subscriptions only. In securing subscriptions the following ratio may be observed: Two six-months' subscriptions are equivalent to one yearly subscription; four three months' subscriptions are equivalent to one yearly subscription.

F—The names of new subscribers, and the amounts collected, should be **sent in as soon as obtained.** Receipts will be forwarded to the subscribers at once, and the amount placed to the credit of the contestant.

G.—This exceptional offer will remain open to all until September 1, 1907. If you get to work at once there is time a plenty for you to secure one of the best trips. You may visit the Exposition any time you please.

## PERSONAL PARAGRAPHS.

—Mr. Jos. P. Minitree, of Greenboro, was among yesterday's arrivals.

—Mr. E. B. Wright, of Boardman, was a guest at The Orton yesterday.

—Masters Nelson and Eugene Page, of Faison, N. C., arrived last evening on a visit to relatives.

—Mr. F. C. McDonald, of Rocky Mount, was a guest at The Orton yesterday.

—Mr. F. B. Johnson, of Clinton, arrived last evening and is a guest at The Orton.

—Mr. T. W. Boyle and wife, of Greeleyville, S. C., were registered at The Orton yesterday.

—Dr. W. Ross Davis and wife, of Whiteville, were in the city yesterday on their return home.

—Mrs. E. J. Powers, of Atlanta, arrived yesterday and will spend a while at Wrightsville Beach.

—Mr. J. C. Foster, of Norfolk, arrived yesterday and is a guest at The Orton.

—Donald McRacken, Esq., of Whiteville, was a guest at The Orton yesterday.

—Mr. John P. Cooper, of Mullins. S. C., was a guest at The Orton yesterday.

—Mr. and Mrs. J. A. Brown and child were at The Orton yesterday and went down to the Beach to spend a short time.

—Mr. H. J. Spooner, Jr., of Providence, R. I., has arrived to look after his extensive cross-tie business at this port.

—Mrs. R. B. Moore has returned home after a very pleasant trip to the Jamestown Exposition. On the return she spent several days at Faison, N. C., with her sister, Mrs. W. C. Page.

—Miss Fannie Brooks, of Seaside, Brunswick county, and Miss Mamie Brooks, of Wilmington, have returned from a visit to the former's brother and the latter's uncle, Mr. W. E. Brooks, of Scottsville, Ga.

—Yesterday afternoon's Fayetteville Observer: "Miss Hattie Taylor left yesterday for Wilmington, where she will be the guest of Mrs. Thos. C. Lewis. —Miss Margaret Holliday, of Wilmington, is visiting Miss Isabelle Williams, on Gillespie street."

**Dances at the Seashore Hotel.**

The management of The Seashore Hotel, Wrightsville Beach, announces that the first of the series of week-end dances to be given on each Friday and Saturday evening during the season will be held tomorrow night and the following night. Monday night will be "children's night" and the ball room will be given up to them and their friends for dancing, games, etc. On Tuesday nights it is the purpose of the management to use the auditorium for vocal and instrumental concerts. Any institution wishing to use the auditorium for charitable purposes on that night can obtain same by applying to the management. On Wednesday and Thursday the regular concerts will be given in the hotel lobby by the Seashore Hotel orchestra from 8:30 to 10:30 P. M.

**Not Badly Injured**

A report became current on the streets yesterday afternoon that Mr. Ben Solomon had been severely hurt in a runaway on Market street. It was learned upon inquiry that while Mr. Solomon had been in a runaway he managed to jump and was not seriously hurt, having walked back to his home from Tenth and Market streets where the accident occurred.

**Pilotage Case Continued.**

Yesterday was the day set for the hearing of the test case made up in Justice Furlong's court for the purpose of testing the validity of the recently established pilotage law. By agreement of counsel, the hearing was postponed until July 2nd in deference to Mr. Rountree, who expected to leave the city on professional business last night.

**Cargo of Cotton Cleared.**

The British steamer Haxby, 2,252 tons, Capt. Eriksson, cleared yesterday for Liverpool with cargo of 10,221 bales of cotton valued at $663,000 and consigned by Messrs. Alexander Sprunt & Son. It is likely that still another steamer will be cleared with cotton before the opening of the new season on September 1st.

**Brooklyn Baptist Sunday School.**

Brooklyn Baptist Sunday School will have its annual excursion on the steamer Wilmington to Carolina Beach today and an enjoyable time is being looked forward to by those who expect to take the outing. The steamer will leave at 9:15 A. M. and 2:30 P. M. Refreshments will be served at city prices for the benefit of the piano fund of the congregation.

## LOCAL DOTS.

—N. E. Gallagher has been granted a permit to build a six-room annex for residence purposes to his store at Sixth and Nixon streets.

—Grace Methodist Sunday School will run its annual excursion to Carolina Beach next Friday, June 21st. There will be three trips of the steamer during the day at 9:15 A. M., 2:45 P. M. and 7:30 P. M. The attendance is expected to be very large.

—The Raleigh News and Observer of yesterday says that Adjutant General T. R. Robertson and Quartermaster General Macon have made requisition on the War Department for the regulation dress cap for the special use of the National Guard at Jamestown in August.

—The Southern Electric Company is distributing to the trade a neat advertising device in the form of a combination thermometer and barometer. Whether the weather is stormy, hot or cold the Southern Electric Company is always prepared to look after the needs of the public in electrical construction and supplies and the souvenir which they are distributing is an interesting and valuable reminder of this fact.

## CHARGES NOT SUSTAINED

**Cases Against Mr. Burriss Dismissed By Justice Bornemann.**

The charges brought against Mr. James H. Burriss by Mr. L. M. Bryant, a full account of which appeared in yesterday's paper, were investigated by Justice Bornemann yesterday at noon and as it was proved to the entire satisfaction of the court that Mr. Burriss was only protecting himself and property which he claims belongs to him, the cases against him were all dismissed. No evidence was introduced at the trial to prove that Mr. Burriss assaulted young Bryant in any way.

Mr. Burriss stated that he was on the land with some negroes who were at work when Mr. Bryant and his son drove on the land and the former went to one of the negroes with an axe uplifted and with an oath told the negro to stop his work. Mr. Burriss prevented him from doing harm to the negro and then whipped Mr. Bryant, and a little later drew his pistol and ordered them both to leave the land.

As the evidence showed that it was not a malicious prosecution on the part of Mr. Bryant, he was not taxed with the costs, and the case was simply dismissed. Mr. Bryant was represented by Herbert McClammy, Esq., and Walter P. Gafford, Esq., represented Mr. Burriss.

As a sequel to the case Mr. Burriss went before Magistrate Furlong and had a warrant issued against Mr. Bryant, charging him with forcible trespass in coming on the land. The negro on whom Mr. Bryant drew the axe also had a peace warrant issued against him. The cases before Magistrate Furlong will come up Friday at noon.

## A PRIZE HIGHLY VALUED.

**Mr. Sam Bordeaux Possessor of Cane of Historical Interest.**

Mr. Sam Bordeaux, who resides at No. 510 South Second street, and who for many years has been a trusted employe of the Seaboard Air Line in this city, is the proud possessor of a cane of historical interest. It is the large hickory walking stick which was used by Governor Dudley during his term of office as the first governor of North Carolina elected by the people. The cane was recently presented to Mr. Bordeaux by a direct lineal descendant of Governor Dudley and he prizes it most highly. He is the type of a man who will carry the favorite walking cane of an illustrious North Carolinian with honor and would not part with it for many times its intrinsic value because of the historical association.

**Side Track is Wanted.**

Mr. M. V. Sutton, of Rooks Station, was in the city yesterday and talks interestingly of the development in that thriving community. Messrs. Lee Woodcock & Bro. have just established a saw mill there and the truck shipments are growing. Day before yesterday alone there were 65 baskets of beans and 11 barrels of Irish potatoes forwarded from there. It is four miles to Atkinson, the nearest shipping point, and the people around Rook's are moving for a railroad siding there. They seem to have a strong case and are putting it up to the railroad people in the strongest possible light.

**Central Fire Station.**

Chairman W. A. French, Jr., of the Fire Committee of the Board of Aldermen, has called for bids to be in by 6 o'clock Friday, June 28th, for the erection of the central fire station recently authorized on Fourth, between Market and Dock streets. Plans and specifications have been prepared by Messrs. McMillen & Cooper, where they may be seen. Chairman Rathjen in a few days will call for plans and specification from architects for the erection of the combined market and fire station at Fourth and Campbell streets. After the plans have been accepted contractors will be asked to submit bids.

**Died in the Hospital.**

Mr. John Taylor, 42 years of age, a resident of Mount Olive, died in the hospital in this city yesterday where he had been for some time for treatment for tuberculosis. The remains were shipped last night to Mount Olive for interment.

**Grand Restaurant Sold.**

The Grand restaurant, on Princess street, has been sold to George Katea, a Greek, who, it is understood, will move the business to the store now occupied by Mr. J. W. Plummer, Jr. In a few days Mr. Plummer will move to his new building on Front street.

**At Market Street M. E. Church.**

The Star is requested to announce that the Social League, composed of the Epworth organizations of the city, will meet tonight at Market Street M. E. Church instead of at Fifth Street Church as previously announced. A large attendance is desired.

**Carolina Central Train Delayed.**

The Charlotte train, due here yesterday morning at 1:35 o'clock, did not reach the city until after 5 A. M., the trouble having been a slight wreck at or near Pembroke. On the return yesterday morning mail connections were missed at Maxton, Lumberton and other points on the line. It was a tired lot of passengers landed in Wilmington for breakfast, but the delay was unavoidable.

## COTTON LEAK PROSECUTION.

**Statistician Holmes Received $49,000 at One Clip.**
**(By Wire to The Morning Star.)**

Washington, June 19.—L. C. Van Riper, the New York speculator, today concluded his third day on the witness stand in the trial of Edwin S. Holmes, Jr., charged with divulging the crop reports of the Agricultural Department. He was under cross-examination all day and very little that was new was developed except a statement to the effect that Holmes had told him that Haas had on one occasion given him $49,000 in one thousand dollar bills.

Van Riper probably will conclude tomorrow.

Being questioned concerning Holmes relations to Statistician Hyde, Van Riper said that Holmes had told him that he (Holmes) always made up the reports and that Hyde never failed to accept his recommendations as to estimates. He contended that the window signal arranged for in case Hyde failed to accept Holmes' figures on the October report, was merely a precautionary measure and not be cause of any doubt. He did not at that time consider the signal arrangement, wrong, because he considered it "legitimate to get information any way you can."

Mr. Van Riper had not concluded when the court adjourned for the day.

## FELL OVERBOARD AT SEA.

**Cadet Ramel Drowned Off Revenue Cutter Chase.**
**(By Wire to the Morning Star.)**

Washington, June 19.—A dispatch was received at the Treasury Department today from Captain Reynolds, commanding the revenue cutter Chase, which is now at Yorktown, Va., reporting the drowning at sea on June 1, of Cadet George R. Ramel, who fell overboard from the quarter deck rail and did not catch the life buoy or rope that were that thrown within his reach. The life boat was immediately cleared away, but Cadet Ramel sank when it reached within a few feet of him and he did not rise to the surface again. Ramel was appointed a cadet in the United States revenue cutter service, April 1, 1906, from New York, and was 24 years old. This is first case of drowning or, indeed, of serious accident to a cadet since the establishment of the cadet service 30 years ago.

Substitution is the loss of trade. In these days of reform the "just as good" proposition fools no one and irritates all those on whom it is tried by an unscrupulous dealer. This is particularly true of Coca-Cola. Imitations have ever followed in the wake of the best things in life. There have been many and varied cheap counterfeits of this great national drink and many there are who have unconsciously attributed some of the injurious effects of these harmful substitutes to genuine Coca-Cola. Nothing could be more unfair or untrue. As well accuse all men of evil because of the actions of the bad ones.

Those who drink Coca-Cola know the genuine far too well to be deceived by the mere claims of any clerk and have the very best of reasons for refusing any cheap make-shift which may permit of a larger profit to the dealer just because the ingredients of genuine Coca-Cola are such as make it cost more than the injurious imitations. Drinkers of real Coca-Cola know that they will find in every glass just the cooling, thrist-quenching and refreshing beverage which has become such a universal favorite in this and other lands. They know, too, that the slightly exhilarating effects are no more harmful than a cup of tea or coffee, and make Coca-Cola the ideal as well as the most popular of all beverages in these days of strenuous methods in both work and play.

To secure the properties used in genuine Coca-Cola, Nature's choicest gift to two hemispheres must be found and transported across both mountains and seas. High in the Andes, the Peruvians endure severest privations by chewing the Coca leaf. Deep in the tropics of Africa, H. M. Stanley has described how the natives are able to make the longest, most fatiguing marches by eating or chewing the Cola nuts. Only the beneficial properties of both have been retained in Coca-Cola, making it as harmless as it is delightful.

And still there are many who ascribe to the genuine Coca-Cola, guaranteed under the new Pure Food and Drugs law, those same impairing and injurious effects found only in the cheap substitutes. To accept some chemical combination in place of Coca-Cola is to lose the pleasure of the genuine at the risk of irremediable harm. It means an unscrupulous dealer wins while you lose. **

## DIED.

COVINGTON—At his home in this city, No. 519 Grace street, Wednesday, June 19th at 10:40 P. M., Mr. EDWIN P. COVINGTON, in the 78th year of his life.

Funeral this (Thursday) afternoon at 2:30 o'clock, after which the remains will be taken to Rockingham, N. C., his birthplace, for interment. Friends of the family are invited to attend the funeral services.

There is only one authorized Keeley Institute in North Carolina, and that is located at Greensboro. we fr su

## GENERAL TELEGRAPH STRIKE

**It Will Affect Both Western Union and Postal Companies.**

(By Wire to the Morning Star.)

New York, June 19.—The general executive board of the Commercial Telegrapher's Union has approved a strike against either or both the Western Union and Postal Telegraph Companies. This announcement was made today by Deputy President S. J. Konenkamp, of the union. The date for the beginning of the strike is left to President Small, but the first action in the matter will be taken in a week or ten days.

Mr. Konenkamp said, when questioned, that a tax of one day's pay per week has been levied against all the members of the union. Notwithstanding the strike announcement, Commissioner of Labor Neill is continuing his investigations with a view to an adjustment of the controversy and has today been in consultation with the officials of the Civic Federation as well as with those of the telegraph companies and the union.

Unless its demands upon the Western Union and Postal Telegraph Companies receive consideration a strike will be ordered within a week or ten days. It was announced today by the Commercial Telegraphers' Union that no specific date for the expiration of their ultimatum was set by the telegraphers and the question of involving one or both companies was left open.

The announcement of the intended strike was made in the form of a statement given out by Deputy President Konenkamp as follows:

"The general executive board of the Commercial Telegraphers' Union has approved a strike against either or both the Postal and the Western Union Telegraph Companies and the matter is now in the hands of President Small. When or where the strike will first be declared will not be given at this time, but it will take place within the next week or ten days. The plans for the campaign have been laid and the men are ready for a struggle."

The language of the announcement is construed as indicating that no general strike is at present contemplated but that the men will be called out at some day, to be followed by a series of local strikes elsewhere.

Edward J. Nally, vice president and general manager of the Postal Telegraph Company said this afternoon:

"The Postal does not expect a strike. We are confident that our employes have no grievance against us."

Western Union officials said they had no comment to make upon the matter.

## WARM WIRELETS.

Roger Breshanan, the baseball catcher of the New York Nationals injured in a game at Cincinnati Tuesday, was believed yesterday to be out of danger in a hospital there.

In a trivial dispute at Monroe, Ga., yesterday Ollie Smallwood, aged 13, killed John Wood, aged 15, by stabbing him with a knife. Both belonged to prominent families. Smallwood was arrested.

The British steamer Ereita, Norfolk to Havana with cargo of coal, went aground opposite Miami, Fla., in 17 feet of water Tuesday afternoon and yesterday part of the cargo had to be jettisoned in an effort to float her. The captain refuses assistance and the vessel is lying easy.

While engaged with three others in steam trials off Torbay, England, yesterday an explosion occurred on a torpedo boat destroyer precipitating the crew of 20 men into the water. The destroyed then sank. The men were rescued by a gunboat and taken to Plymouth.

A coffee plantation owner arrived at Mexico City from Salvador says that Guatemala has 1,000 men working on fortifications at the port of Oscos, which will be the strongest fortification in all Central America. The government has all the laborers in this work and it is difficult to man river craft at Oscos. In addition to the coast defences, deep trenches are being built and machine guns and cannon mounted along the frontier.

Ira B. Smith, of a prominent Milwaukee bankrupt grocery firm, was arrested yesterday at the instance of Oliver C. Mason, a real estate broker, who alleges that Smith obtained money under false pretence of his firm's finances. He gave bond of $6,000. Smith was indebted personally to the bankrupt firm in the sum of $100,000. He was a prominent business and club man.

Italian Minister Renuzzi, at Mexico City, has received no confirmation of the report that the Italian protected cruiser Dogali has been ordered to Guatemala to back up that government protest against the execution of two Italian citizens convicted of complicity in the alleged attempt on the life of Estrada Cabrera, president of Guatemala.

Captain Morrow, of the United States Army transport Kilpatrick, has been fined $720 by the Treasury Department for violating the laws in bringing to Newport News a case of silks, laces and other fine dress goods marked "used household goods." Collector of Customs Stuart refused to discuss the case, but according to what can be learned the box which caused the trouble was shipped from Havana by Major Herbert Slocum, U. S. A. The goods in the case were liable to import duty.

The Kentucky Republican State Convention at Louisville yesterday nominated the Hon. Augustus E. Wilson, of Louisville, for governor. Roosevelt's courage, ability and integrity were lauded and his policies approved. The resolutions favor the nomination of a man for President in accord with Roosevelt. Former Governor Bradley, lately a fugitive from justice, was permanent chairman of the convention, and made a speech belittling Bryan and the chances of Democracy for winning the Presidency.

## THE MOON'S VOLCANOES.

**Causes of the Gigantic Craters and Great Fissure Eruptions.**

It is evident to any one who glances upward at the moon that its volcanoes are on an immensely larger scale than those which stud our globe. One explanation, now abandoned, is that the force of gravitation being there only one-sixth that of the earth the matter expelled from a crater would be spread far more widely, and explosions would be generally on a far more magnificent scale. Professor Pickering quotes this theory only to refute it in some comparisons which he made between the great volcanic region of Hawaii and one of the smaller craters of the moon. The facts seem to him to be that the larger craters on the moon came into existence when the thin, solid crust covering the molten interior was, owing to the solidification and contraction of the crust, much too small to contain the liquid material. The craters were therefore formed by the lava bursting through the crust and so relieving the pressure. Later, after this relief had been found and the crust had thickened, the interior regions by cooling shrank away from the solid shell, which was now too large and, being insufficiently supported, caved in, permitting the great fissure eruptions which produced the so called lunar seas. These extensive outflows of lava dissolved the original solid shell whenever they came into contact with it, much as they do in the present day in Hawaii. Had the moon been much smaller these eruptions might not have occurred at all, and if the moon had been much larger their relative size would have been greater. Most probably on the earth similar outbursts were greater, and our original gigantic craters were destroyed by the outflow of the earlier archaic rocks which completely submerged and dissolved them. —London Post.

## THE ESKIMO BABY.

**How the Little One Is Carried and Cared For by the Mother.**

The arrival in the world of the youthful Eskimo is not greeted by the orthodox cradle and swaddling clothes. Practically till he can shift for himself he lives absolutely naked inside his mother's sealskin blouse, skin to skin keeping him warm.

This arrangement allows the mother to go about her work almost immediately, and she can also travel and hunt without a perambulator and without having to leave any one at home to "mind" the baby. The mother's dress is almost exactly like the father's, except that it has a long sort of tail reaching nearly to the ground, embryo, no doubt, of the modern "train."

Spared the miseries of soap and water and early weaned to the readily swallowed diet of blubber and raw seal meat, the infant rapidly develops that invaluable layer of subcutaneous fat which, while it enhances the "jolly" appearance of the lads and the shapeliness of the maidens, assists materially in economy in clothing.

Thus in their frigid clime, once in their skin tent, the whole family will divest themselves of every stitch of clothing, unembarrassed by the fact that so many families share the tent with them. Sociability is early developed when one's next door neighbor on each side is only separated by an imaginary line between the deerskin you sleep on and the one he uses. The winter deerskin serves as bed and bedding at night and as parlor furniture during the day. Community of goods is almost imperative under this arrangement. Thus when one kills a seal all are fed, and likewise when he doesn't all go hungry together.—American Missionary.

**The New England Conscience.**

The New England conscience isn't an idea. It's an inherited disease.—Life.

Work is not a man's punishment. It is his reward and his strength.—George Sand.

At Huntsville, Ala., yesterday Counsel for Green and Gaynor, the Savannah contractors who are under sentence for defrauding the government, filed with Judge Shelby, of the United States Court of Appeals, a petition for leave to enter a motion for a rehearing of the case. The Court of Appeals recently affirmed the sentence of the lower court. The motion has been granted and application for rehearing will be formally entered when the Court of Appeals convenes in September.

**The Magic No. 3.**

Number three is a wonderful mascot for Geo. H. Parris, of Cedar Grove, Me., according to a letter which reads: "After suffering much with liver and kidney trouble, and becoming greatly discouraged by the failure to find relief, I tried Electric Bitters, and as a result I am a well man today. The first bottle relieved and three bottles completed the cure." Guaranteed best on earth for stomach, liver and kidney troubles, by R .R. Bellamy ,druggist. 50c.

**The Sign on the Door.**

Have you read "The Sign on the Door," written by G. Henry Haar, of the firm of Platt & Haar, and calls attention to the fact that the firm closes Friday at 1 P. M. and appreciates the patronage of the ladies on Thursdays, Friday A. M. and Saturdays especially? **

MEN AND WOMEN.

Sold by Druggists or sent in plain wrapper, by express, prepaid, for $1.00, or 3 bottles $2.75. Circular sent on request.

## INDIAN LODGES.

**Homes of the Savages In the Days of the Buffalo.**

While in buffalo days some of the wild Indians of the plains occupied permanent dwellings during a part of the year, there were others who lived wholly in movable lodges.

These were made of buffalo skins tanned white and sewed together. They were of different sizes, the poor occupying smaller lodges, while the wealthy man, he who owned many horses, very likely had a large family and required a larger lodge. The size of a man's lodge was to some extent an indication of his wealth. Two horses were needed to drag the poles of a large lodge and one to carry the lodge itself, three horses for the transportation of the dwelling alone, to say nothing of the other property and the different members of the family.

A lodge of moderate size required eleven skins, and eighteen poles were needed to set it up. A sixteen skin lodge required twenty-two poles. The larger the lodge the greater was the number of poles needed. From the fact that they used an unusual number of poles in setting up their lodges it resulted that the Cheyennes had well stretched, nice looking lodges.

The northern Cheyennes declare that an odd number of hides was always used for the best lodges, and the number might range from eleven to twenty-one. The skins were sewed together with sinew thread. First, of course, the hides must be tanned, the hair removed and the skin softened. Then the Cheyenne woman held a sewing bee which was not unlike the bees of our ancestors in the early days of this country. She invited her friends to come and help her sew her lodge and provided them with refreshments. Among them was always one woman especially skillful in cutting out the lodges, and she fitted the skins together before the women began to sew them. —Forest and Stream.

## HOLDING A CAMERA.

**Some Practical Suggestions to the Beginner In Photography.**

One of the most important lessons for a beginner to learn is to hold the camera in the proper position during exposure. Whenever there are corners of buildings or other objects which give vertical lines the camera must be held absolutely level. If this is not done, the building in the picture will appear to be falling either backward or forward, according to the way in which the camera was tilted.

There are times, however, when the camera may be tilted to an advantage. In some cases it is an absolute necessity. For example, in photographs of clouds, waterfalls, balloons, etc., the camera may point upward, while in taking pictures of people swimming or bathing, children at work or play, etc., it may be pointed downward.

Very successful photographs of prominent speakers, parades, crowds, etc., have been taken when the camera was upside down. It makes no difference in the negative whether the camera is right side up or not. By holding the camera in the way suggested many a photographer has secured good pictures, while others who tried to use the camera in the usual way made absolute failures.

Often by holding the camera by the side of the body and pointing it backward one may secure pictures of children at play and of older people in natural poses without the knowledge of any members of the group.

Another warning to beginners is necessary. Do not try to take a time exposure while holding the camera in the hand. Even if the camera is held against the breast and respiration stopped the action of the heart is sufficient to cause the box to vibrate and spoil the picture.—Circle Magazine.

North Carolina.
New Hanover County.

William J. Brown vs. William McD. Brown and George H. Brown.

This is an action brought by the plaintiff before the Clerk of the Superior Court of New Hanover County, for the purpose of selling two lots of land in the city of Wilmington, one, part of Lot 4 and 5, Block 224, and the other, part of Lot 1, Block 240, more particularly described in the complaint this day filed. And it being made to appear that the said defendants are non-residents of this State and cannot after due diligence be found in this State, and they are necessary parties to this action; Now, the said defendants are hereby notified to be and appear before the Clerk of the Superior Court of New Hanover County, at the Court House in Wilmington, on the 18th day of July, 1907, and answer or demur to the said complaint now on file in this office, or judgment will be granted against them according to the prayer of said complaint.

JNO. D. TAYLOR,
Clerk of the Superior Court of New Hanover County.

SPIRITS TURPENTINE

—Charlotte Observer, June 15: Mr. Judd D. Albright, deputy United States collector of this station, went down to Kings Mountain yesterday and, assisted by Policemen Elliot and Hoard, of that historic town, captured and destroyed a still, almost on the very top of the mountain. One Julius Felmet, a blockader, was arrested.

—Fayetteville, June 18: Mr. A. B. Walker, of Little River Side Academy, was driving along Railroad street on Saturday, when his horse took a fright, throwing him from the buggy, and breaking his left arm. He was able to drive to the residence of his son, Mr. W. W. Walker, where his arm was set.

—Fayetteville, June 18: The McNeill Manufacturing Company, W. D. McNeill president, and C. L. Pemberton secretary, has given the contract to Lockwood, Greet & Co., of Boston, Mass., for the construction and equipment of their cotton mill at Manchester to run 10,000 spindles and 300 looms. The dam for the water power is already built.

—At Raleigh on Tuesday the Secretary of State chartered the Beaufort Banking and Trust Company, of Beaufort to conduct the business of commercial and saving bank. The capital stock is $50,000, with $15,000 subscribed. The incorporators are: Messrs. N. W. Taylor, C. L. Duncan, J. H. Potter, George Davis, W. B. Shull,, B. J. Bell, W. A. Mace, C. D. Jones, C. P. Dey, J. B. Jones, H. C. Jones, Mrs. B. T. Jones and Mr. John Farlow, of Beaufort; Messrs. Charles S. Davis, Hoopers Island; Thomas Duncan, Charleston, S. C., and 26 others.

—Statesville, June 18: Mr. R. V. Brawley, a Statesville real estate man, has secured an option on what is known as the Weaver Bend property on the French Broad river, near Paint Rock, just across the line in Tennessee. The property is considered one of the finest and most valuable tracts for miles around. It consists of 1,100 acres of timber land from which near 2,000,000 feet of lumber can be cut, but the real value is the fact that the property includes three shoals on the river, which are considered among the most vlauable water powers in the country.

—Raleigh News and Observer, June 19: Lee county has already gotten there. It is a recognized county now wherever the new maps and folders issued by the Department of Agriculture are circulated, and the people in the new county territory say that they will make the map "good." Lee county is to be voted upon the first of July, and as it is stated that practically all the people in the new territory are solidly for it, the real establishment of the county waits but the coming of July. In the meantime, so as to be ready for the day the Department of Agriculture issues the map with Lee county on it. This gives North Carolina 98 counties, with Lee county, the baby to be, all in pink, nestling cosily surrounded by Chatham and Moore its parents, with Harnett also as a sort of sponsor on the southeast. It looks good with Sanford and Jonesboro in big black type as the joint county seat. This map of the Department of Agriculture is part of a folder issued in English, German, Swedish and other languages which is being distributed in this country and in parts of Europe from which North Carolina desires settlers. The folder gives information about the resources of North Carolina in all lines of industry and tells about the farms, forests, trucking fields, dairying, cattle and fruit growing in the State. Its title is "North Carolina, the Land of Opportunity," and in its pages it tells how good homes are easily acquired, fortunes made in growing early vegetables and fruits, with plenty of room for industrious people and with paying investments for capital. The folder is profusely illustrated and is valuable reading not alone for people outside of North Carolina, but for those in the State, its illustrations alone presenting a superb advertisement to the world of what North Carolina has to offer to those who will only reach out their hands and take the good things in this land "flowing with milk and honey," and which now presents to the world its newest county, named in honor of the great Confederate chieftain, General Robert E. Lee.

**He Fired the Stick.**

"I have fired the walking-stick I've carried over 40 years, on account of a sore that resisted every kind of treatment, until I tried Bucklen's Arnica Salve; that has healed the sore and made me a happy man," writes John Garrett, of North Mills, N. C. Guaranteed for Piles, Burns, Etc., by R. R. Bellamy, druggist, 25s.

The site of The Keeley Institute at Greensboro comprises an entire city block. Thoroughly modern sanitarium; rooms en suite with private bath if desired. thu sat **

**THE PEOPLE ALL**

**In Chorus Cried, Give Us Newbro's Herpicide.**

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes," Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

**Two sizes—50 cents and $1.00.**

Excellency in Clothing and Toggery

Yes, Sir! Spring's Here.

Takea Tonic.

Nothing better than one of our Spring Suits, a Spring Hat, some Spring Shirts, Spring Tie, Spring Underwear, Spring Hosiery. If these things don't make you feel the joy of

Returning Spring

we'll give it up. We've kept our eyes open for months, and whatever is new and right, whatever's the best, we've got.

Come see what's to be seen here now. ou'll be pleased with our Spring Toggery. We make no charge for this prescription, but we're sure it will do you good if you act upon our advice.

J. M. Solky & Co.

At Home

A prominent business man said a few days ago, "I like to go into THE ATLANTIC NATIONAL BANK; its clerks have a way of making one feel at home."

Do you feel "at home" in your bank—do you feel at liberty to discuss your business affairs with its officers?

Customers of this bank realize that we are here to help them—to furnish a safe place of deposit—to LEND THEM MONEY when needed, and do not hesitate to make their wants known.

What we are doing for many others we want to do for you.

Atlantic National Bank

PORK—Corn fed 8@10.

TURKEYS—Out of season.

### THE COTTON MARKET.

(By Wire to the Morning Star.)

New York, June 19.—The cotton market was less active today, sales being estimated at 200,000 bales. Fluctuations continued irregular with the close steady net unchanged to 5 points higher. The opening was steady at an advance of 6 to 10 points in response to higher cables and covering of shorts. The weather map was thought to be favorable in the main, the early forecast called for cloudy or showery weather in the western belt and prices eased off soon after the opening under a renewal of scattering liquidation and selling by yesterday's liquidators. After declining to about the closing figures of yesterday the market was rallied during the middle session by private complaints of hot, dry weather in the western belt and in the afternoon sold up to a net advance of 11 to 14 points led by July. Shorts were buying on the advance, and there was some Wall street bull support, but the demand was not sustained, and prices eased off during the last hour under local selling. The active new crop positions closed at practically the final figures of the previous day. Trading was mostly local but there was some selling here at the initial advance in New Orleans and Liverpool. Exports at the ports were over 300,000 bales in excess of receipts and so far for the season are about 2,000,000 bales heavier than to the same day last year. Southern spot markets were generally unchanged.

Receipts at the ports today were 7,030 bales against 5,886 last week and 5,719 last year. For the week 40,000 bales against 34,034 last week and 32,102 last year. Today's receipts at New Orleans 2,586 bales against 1,882 last year and at Houston 544 bales against 681 last year.

Spot cotton closed steady; middling uplands 12.95; middling gulf 13.20; sales 465 bales.

Futures opened and closed steady.

# DON'T WAIT.

Take Advantage of Wilmington Citizen's Experience Before It's Too Late.

When the back begins to ache,

Don't wait until backache becomes chronic;

Till serious kidney troubles develop;

Till urinary troubles destroy night's rest.

Profit by a Wilmington citizen's experience.

H. W. Bagg, merchant and furniture manufacturer of Second and Market streets, residing at 114 North Sixth St., Wilmington, N. C., says: "I used Doan's Kidney Pills and they proved to be a grand medicine, and I can only say that Doan's Ointment is the best remedy of the kind on the face of the earth. I suffered with my back for a long time. When I sat at my desk for a while and attempted to get up I would have to catch hold of a chair for support and straighten myself up gradually. The kidney secretions were dark colored and full of sediment. I read about Doan's Kidney Pills in our papers and went to R. R. Bellamy's drug store and got a box. Since using them my back is strong and I can move about and stand up straight as ever and the kidney secretions have all cleared up. You may use my name as an endorser of the claims made for Doan's Kidney Pills and also Doan's Ointment, which I used with good results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Has your stomach gone out of business? If so you can reach the top-notch of physical and mental power by using Hollister's Rocky Mountain Tea 35 cents, Tea or Tablets. J. Hicks Bunting Drug Co.

Special arrangements are maintained for treating ladies at The Greensboro Keeley Institute. Absolute privacy if desired. thu sat **

# PACKET COMBINE OF WORLD SIZE

## Interstate Commerce Commission Tackling Something of Large Propositions

## STEAMSHIPS IN BIG TRUST

**Controls Freights and Intimates Shippers in America and Europe—It is Aided By Government Owned Railroads of Germany.**

(By Wire to the Morning Star.)

Washington, June 19.—The Inter-State Commerce Commission today decided to institute proceedings of inquiry and investigation into the affairs of the Hamburg-American Packet Company, which is charged by Peter Wright & Sons, general agents at Philadelphia of the Cosmopolitan Shipping Company and the Cosmopolitan lines, with pooling and maintaining monopolies in restraint of trade. The inquiry is expected to be one of the most stupendous ever undertaken and of a character different from any that ever before has engaged the attention of the commission.

The inquiry will have to deal with an alleged combination between railroads in the United States and the German shipping concern and therefore interests every American producer, manufacturer or shipper aspiring to introduce his goods to foreign consumers.

According to the complaint on which action was taken by the commission the Hamburg American Packet Company has built up a complete monopoly of the eastbound traffic originating in Chicago, St. Louis, Kansas City, Omaha, Minneapolis, Duluth, Cleveland and manufacturing centers of the United States intended for interior points or places on the continent of Europe. The complaint renews what is claimed to be unfair methods in stifling competition.

The Cosmopolitan Shipping Company, of Philadelphia, which figures as the complainant, operates lines to Rotterdam, Leith and Copenhagen. The charges alleged an iron clad trust on trans-Atlantic freight carrying exists between the Hamburg-American Packett Company, the North German Lloyd, Scandinavian-American line and the Wilson (Sull) line and that this pool proportions the volume of traffic each of its members shall carry, and from what port or ports each line shall make its sailings, thus involving the apportionment of traffic originating in Western cities, both as to character and amount between the cities of the North Atlantic seaboard.

In charging that the Hamburg American Packet Company in its almost absolute control of eastbound and westbound traffic between interior points of the United States and Hamburg, is a monopoly in restraint of trade the complaining company raises an international question. The allegation is made that the foreign corporations is backed by the German government, dictates terms, routes and rates to shippers all over the United States who forward goods to Baltic ports, diverts freight to and from American ports at its own will without regard to the natural flow of trade, and uses corecisive and unlawful methods to crush competition.

The statement filed by Peter Wright & Sons says the Cosmopolitan freight services have no desire to suppress legitimate competition and adds:

"We, therefore, do not seek to have ameliorated any of the conditions which fair competition may impose. We do believe, however, that pooling, combinations and intimidations, the latter in certain instances approaching blackmail, even under the sembalnces of competition, are not legitimate forms of competition. Pooling, combination and intimidations in their worst forms have been encountered recently by the Cosmopolitan services. These are the unlawful conditions masquerading under the guise of competition which it is our purpose to endeavor to place before your honorable commission in a concise and chronological form."

In connection with the complaint the Cosmopolitan line submitted copies of the combine's rebate form of contracts and it is alleged that these show that shippers are bribed and squeezed to compel them to submit to the monopoly. It is charged that the Hamburg American Packet Company's monopoly begins with the State owned railroads in Germany, who give the corporation rebates; and that the company forces all European shippers to sign an iron clad contract, providing for liberal rebates in return for exclusive shipments by its lines.

It is charged that under the existing contract which European shippers have to sign they must ship every pound of freight for Boston, New York, Philadelphia, Baltimore, Norfolk and Newport News by trust lines, whether they go through German, Belgian or Dutch ports or the routing of which can be in any way controlled by the merchant. Further, it is charged that the merchant who ships one consignment by an independent line cannot ship any at all by a line in the combination.

**Combine Denied.**

New York, June 19.—The reply of the Hamburg-American Steam Packet Company to the charges preferred before the Inter-State Commerce Commission by Peter Wright & Sons, Philadelphia agents of the Cosmopolitan Steamship Company, will, it is understood, be in the nature of a general denial that a combination for the restraint of trade exists between the defendant and allied lines.

# HARRY ORCHARD IN CORROBORATED

## State in Steunenberg Muder Trial Introduces Dramatic Proof of Crimes.

## DEADLY BOMB IN COURT

**It Was Planted to Kill Judge Stoddard and Was Found Where Orchard Said He Planted It at His Gate.**

(By Wire to The Morning Star.)

Boise, Idaho, June 19.—The State today made dramatic production and proof of the Goddard bomb, and besides offered further contributions to the testimony of Harry Orchard against William D. Haywood, secured a ruling under which a number of the denunciatory articles published in the Miners' Magazine, official organ of the Western Federation of Miners, will be admitted in evidence.

To Justice Goddard himself fell the the task of telling the story of the finding and preservation of the bomb with which Orchard tried to kill him. His appearance added to the dramatic scenes and situations that have characterized the trial. His testimony was celar and minutely told.

The veteran Colorado jurist testified that the first information that he received about the bomb came to him in Orchard's letter which was shown to him at Denver February 13, 1906, by Detective McPartland. He at once returned to his home and in his gate discovered the screw eye which Orchard said he placed there. It was rusted and corroded by ten months exposure. The witness said he examined the ground outside the gate, where Orchard said he placed the bomb and found a slight depression with the soil packed around it.

The bomb was dug up the next day by General Bulkeley Wells, who used a pocket knife to cut the soil away and raise the pine box containing the bomb. There was a small phial on top of the box and attached to the cork of the phial was a piece of rusted wire. The bomb and its attachment were at once taken to the office of the Pinkerton detective agency and carefully sealed in wrappers and envelopes that were signed by half a dozen witnesses, including Justice Goddard, and after that they were placed in a vault to the door of which seals, including that of a notary public, were attached. There they rested until May 22 following, when, believing the Haywood case was to come to trial, they were removed in the presence of the same witnesses and all save three of the forty sticks of giant powder contained in the bomb were exploded. The explosions occurred in the presence of the witnesses in the suburbs of Denver, and of the bomb itself, 12 giant caps and two wrappers torn from sticks of giant powder were saved as evidence.

Senator Borah produced the several packets as they were originally sealed, and commencing with the phial, passed them to Justice Goddard, who broke the seals and identified the articles. After the phial came the little screw eye, then a dozen giant caps and last the powder wrappers. Attorneys Richardson and Darrow, for the defense, objected to all the evidence and all the exhibits and moved to strike out every thing, but the court ruled against them.

Mrs. Seward, at whose house in San Francisco Harry Orchard lived during part of the time he was conducting his operations against Fred Bradley, gave testimony strongly corroborative of Orchard's account of his acts and experiences in San Francisco. Besides confirming Orchard's recital as to time, movements and locations she testified that she found lead and wood shaving in Orchard's room and a screw eye, string and bottle attached to the closet door where Orchard had been experimenting. She said her lodger had a very heavy suit case and that she thought he was an inventor.

John L. Stearns, agent at Denver for the Mutual Life Insurance Company, confirmed the story Orchard told about securing employment as a solicitor for the company before he went to Canyon City to kill former Governor Peabody and produced letters of recommendation which Orchard furnished in response to his request. One of the letters was from George Pettibone, a co-defendant of Haywood, and it made jocular reference to the fact that Stearns was taking many agents from him and requested in future when any of his agents applied for work they be put out on the sidewalk. Another letter was signed by Horace N. Hawkins, partner of Attorney Richardson, of the defense, and it gave Orchard, then travelling under the name of Thomas Hogan, a strong recommendation as to character. The defense objected to the letters, but the court permitted their introduction.

Riley Harris, a young man who worked for Roach, the plumber who amed the lead casing for the Peabody bomb, told of the call of Harry Orchard at Roach's shop in Denver in May, 1905; of the making of the casing and of the delivery of the article to Orchard, whom the witness identified.

The morning session was spent in securing the admissibility of the editorials which the State offered as evidence yesterday. Each side took the Chicago anarchist case as its legal guide and justification, the defense pleading that the legal propositions varied, the prosecution that they were on all fours. Judge Wood wanted to see the articles and took recess from 11 o'clock until 2 o'clock to look them over. After recess he said that he had decided to let certain of the articles go before the jury and to exclude certain others. He will rule tomorrow as to the particular ones that are to be admitted.

# CAPITAL GRAFT IN PENNSYLVANIA

## State Grossly Swindled in Every Piece of Furniture in New Building.

## STEALAGE WAS ENORMOUS

**State Paid $566,000 for Bronze Work Worth Only $26,000—Thousands of Dollars Paid for Articles Worth Only Hundreds.**

(By Wire to the Morning Star.)

Harrisburg, Pa., June 19.—Charles D. Montague, a metallic furniture expert, of New York, testified before the capitol investigating committee today that the State had not only been grossly over charged for the metallic furniture supplied by the Pennsylvania Construction Company under its $2,000,000 contract with the board of grounds and buildings, but that he had bored into the burglar proof vault in the State treasury in four hours with an ordinary eight inch breast drill. Mr. Montague said also that the four safes in the capitol for which this concern was paid $66,,000 by the State were worth only $27,000, and that there was no chromestel or steel rails in the vault, only ordinary steel which any one could bore into with ease. As to the metallic furniture, the expert said the State was charged excessive prices.

He cited certain bills which were two and three times more than a fair trade list price without the customary discount. He said the sub-basement contained one case that cost the State $1,182. The list price was $297.01, subject to discount. As to the first floor metallic furniture, it cost $228,-231.10 and was worth $132,103.53. On the entresol floor the cases were billed at $15,688.40 and were worth $6,470.65. These estimates were based on standard trade price lists. Mr. Montague never heard of metallic furniture being sold by the foot "outside of Harrisburg."

He said Architect Huston "designed" metallic furniture for rooms which do not contain any at all and plans for which Huston collected a commission of $80,000 from the State as his own were prepared by a company which supplied the metallic furniture to the Pennsylvania company.

The expert said that the bronze on the first floor was worth $26,000. The State paid $566,000. The commission will be in session for probably the next two days. Former Governor Pennypacker and other officials will be given an opportunity to be heard this week.

## MINNESOTA LAUNCH DISASTER.

**Fifty Dollars Reward for Midshipman Murfin's Body.**

(By Wire to the Morning Star.)

Newport News, Va., June 10.—Just before the battleships Ohio, Iowa, Maine and Indiana sailed from Hampton Roads today for the southern drill grounds off the Virginia capes, an order was posted from the flagship, the Ohio, offering a reward of $50 for the body of Midshipman Henry Clay Murfin, the only one of the 11 victims of the ill-fated launch of the battleship Minnesota whose remains have not been recovered. The Minnesota remained in the roads and her boats, with those of the cruiser Brooklyn, the battleship Texas, and the Monitor Miantonomah and several government tugs are still searching for the body, but the absence of the four battleships cripples the Navy Department's facilities and it was deemed advisable to induce outsiders to join in the search.

From Norfolk comes the report that at the Norfolk navy yard it is stated that the body of Ordinary Seaman F. R. Plumble has not been found. Before he left for Washington yesterday, Rear Admiral Emory gave the Associated Press correspondent a copy of the official list of bodies recovered. This list contained ten names, including that of Plumble and showed that Midshipman Murfin's body was the only one missing. The battleship squadron will return to the roads in a few days.

## PRODUCERS AND SPINNERS.

**Efforts to Cut Out Middle Men in Cotton Business.**

(By Wire to the Morning Star.)

Memphis, Tenn., June 19.—J. A. McEndery, of Alabama, who recently returned from the convention of European cotton spinners held in Virginia, in May, was present at the meeting of the State agents of the Farmers' Union. He presented numerous statistics concerning the various mills in Europe and made several suggestions regarding future relations between the producers and spinners. Several topics were discussed in today's meeting, the most important of which was one relating to the establishment of commission houses in the various States for the purpose of consummating sales between the farmer and spinner without the aid of the Cotton Exchange. No definite action was taken on any of the matters before the meeting.

## IS CONFEDERATE RELIC.

**Last of Man-of-War Viper, Built for South in England.**

St. John, N. B., June 19.—A pile of 1,200 tons of scrap iron in the hold of the dismasted bark Wildwood, which has arrived here from Bermuda in tow of the ocean tug Gladysfen, is all that remains of the old British man-of-war Viper. The Viper was one of the English-made warships with which the Confederacy proposed to destroy the United States navy during the Civil War, but the British government learned of the use intended for the warship and she was confiscated and later sent to Bermuda.
